About Us

AASA Consulting was established in 1995 as a multi-disciplinary firm with the primary aim of improving the lives of people in Pakistan by assisting the government, donor agencies, NGOs and other organizations working in the development sector of the country. With over 20 years of rich experience and the successful completion of high profile projects, we remain a reliable partner of first choice to many of the leading organizations in the country.

AASA Consulting is known for delivering value-added and innovative services to its clients. We have completed projects both domestically and internationally.

We possess the technical, administrative and logistics capabilities to successfully execute projects at national and regional levels. We have the requisite resources and experience to deliver work of all dimensions and scale in all areas of Pakistan.

We ensure the highest standard of quality and competence for our clients and partners, and ensure that we engage the best available human resources to enable our clients and partners to receive the best value and services. In addition, we have access to the best available and proven experts in respective fields who serve as our advisors on a project to project basis.

We uphold the values of professionalism, client focus, quality, and teamwork, which further ensures that our outputs and results meet the highest standard of client expectations.
